

Contents

Chapter-I Plumbing

1.1	Introduction	1.3
	1.1.1 Purpose of Plumbing	
1.2	Tools used in Plumbing	1.4
	1.2.1 Marking tools	1.5
	1.2.2 Measuring Tools	1.6
	1.2.3 Holding Tools	1.7
	1.2.4 Cutting Tools	1.9
	1.2.5 Striking tools	1.13
	1.2.6 Fastening Tools	1.14
1.3	Pipe and Pipe Fittings	1.14
	1.3.1 Main Purpose of using Pipe Fittings.....	1.17
	1.3.2 Various Pipe Fittings	1.17
1.4	Valves	1.20
	1.4.2 Characteristics of General Valves	1.26
1.5	Sewage Plumbing system (for house hold applications)	1.27
1.6	Preparation of Plumbing Layout Diagram	1.28
	1.6.1 Legents used in Piping	1.29
	1.6.2 Various joints in piping	1.33
	1.6.3 Layout for a Delivery Line from the Pump Outlet	1.35
1.7	Pump	1.36
1.8	Safety Precautions in Plumbing	1.37

Exercises

1. Connect PVC Pipes with Coupling	1.39
2. Connect PVC Pipe with Elbow	1.41
3. Connect G.I Pipe with Coupling	1.43
4. Connect the G. I Pipe with the Elbow	1.45
5. Connecting Two Different Diameter PVC Pipe	1.47
6. Basic Piping Connection for a Domestic House	1.49

Chapter-2 : Carpentry

2.1 Introduction	2.3
2.1.1 About Timbers	2.3
2.1.2 Structure of Wood	2.4
2.1.3 Types of Wood	2.5
2.1.4 Seasoning of Wood	2.6
2.2 Carpentry Tools	2.6
2.2.1 Marking, Measuring and Inspecting Tools	2.7
2.2.2 Cutting Tools	2.10
2.2.3 Planing Tools	2.15
2.2.4 Boring Tools	2.16
2.2.5 Striking Tools	2.18
2.2.6 Holding Tools	2.18
2.2.7 Scraping Tools	2.19
2.2.8 Fastening Tools	2.20
2.2.9 Power Tools	2.20
2.3 Study Of Carpentry Joints in Doors, Windows and Furnitures	2.21
2.3.1 Plain or Butt Joint	2.21
2.3.2 Lap Joint	2.21

2.4 Carpentry Machines	2.23
2.5 Carpentry Process	2.24
2.6 Safety Precautions for Carpentry Work	2.26

Exercises

1. Planing Process	2.29
2. Cross Lap Joint	2.31
3. T- Joint	2.35
4. Dovetail Joint	2.39
5. Mortise and Tenon Joint	2.43
6. Mitre Faced Bride Joint	2.47

Chapter-3 : Welding

3.1 Introduction	3.3
3.1.1 Applications of Welding	3.3
3.2 Types of Welding Process	3.5
3.3 Gas Welding	3.5
3.3.2 Oxy-Acetylene Welding	3.6
3.3.2 Types of Flames	3.7
3.3.3 Gas Welding Equipments	3.8
3.3.4 Gas Welding Techniques	3.10
3.4 Gas Cutting or Oxygen Cutting	3.11
3.5 Shutting off Gas Welding	3.11
3.6 Safety Precautions in Gas Welding	3.12
3.7 Arc Welding	3.12
3.7.1 Arc Welding Machines	3.13
3.7.2 Arc Welding Equipments	3.14
3.7.3 Comparison of DC and AC Welding	3.16
3.8 Arc Welding Types	3.17
3.8.1 Arc Producing Techniques	3.17

3.9 Welding Symbols	3.18
3.9.1 Comparison of Arc Welding and Gas Welding	3.20
3.10 Welding Related Processes	3.20
3.10.1 Soldering	3.20
3.10.2 Brazing	3.22
3.11 Safety Precautions in Arc Welding	3.22

Exercises

1. Square Butt Joint	3.25
2. Single V-Butt Joint	3.27
3. Double V-Butt Joint	3.29
4. Lap Joint	3.31
5. Tee Fillet Joint	3.33
6. Corner Joint or L Joint	3.35
7. Gas Welding Practice	3.37

Chapter-4 : Basic Machining

4.1 Introduction	4.3
4.1.1 Lathe	4.3
4.1.2 Main Parts of a Lathe	4.5
4.1.3 Specification of Lathe	4.8
4.1.4 Lathe Terms	4.8
4.2 Work Holding Devices	4.9
4.3 Tools	4.13
4.3.1 Marking, Measuring Tools	4.13
4.4 Cutting Tools	4.15
4.4.1 Tool Life	4.17
4.4.2 Cutting Tool Materials	4.17
4.4.3 Nomenclature of Cutting Tool	4.18

4.4.4 Function of Tool Angle	4.20
4.5 Operations Done on Lathe	4.20
4.6 Drilling Machine	4.24
4.6.1 Construction of Radial Drilling Machine.....		4.24
4.6.2 Various Parts of Drilling Machine.	4.25
4.6.3 Types of Drilling Machine	4.26
4.6.4 Operations Done on Drilling Machine	4.27
4.7 Safety Precautions for Basic Machining	4.28

Exercises

1. Facing and Turning	4.31
2. Step Turning, Knurling and Chamfering	4.33
3. Taper Turning	4.35
4. Thread Cutting	4.37
5. Drilling and Tapping	4.39

Chapter-5 : Machine Assembly Practice

5.1 Introduction (Centrifugal Pumps)	5.3
5.1.1 Principle of Centrifugal Pump	5.3
5.2 Parts of a Centrifugal Pump	5.3
5.2.1 Impeller	5.4
5.2.2 Casing	5.4
5.3 Working of a Centrifugal Pump	5.6
5.4 Priming	5.7
5.5 Application of Centrifugal Pump	5.7
5.6 Multistage Pumps	5.7
5.6.1 Multistage Pump (Impeller in Series).....		5.8
5.6.2 Multistage Pump (Pumps in Parallel)	5.9
5.7 Efficiency of Centrifugal Pump	5.9
5.8 Fault and causes for Pump Failure	5.10

5.9 Introduction (Air Conditioner)	5.11
5.10 Main Parts of a Window Air Conditioner	5.11
5.11 Refrigeration Cycle	5.13
5.11.1 Vapour Compression Refrigeration Cycle.....	5.13
5.11.2 Vapour Absorption Cycle	5.14
5.12 AC - Control Panel	5.15
5.13 General Servicing of Window Air Conditioner.....	5.16

Chapter-6 : Smithy/Forging

6.1 Introduction	6.3
6.2 Forging	6.3
6.3 Tools Used in Smithy Shop	6.4
6.4 Forging Operations	6.10
6.5 Hearth Furnace	6.12
6.5.1 Types of Forging	6.12
6.5.2 Forging Temperature	6.14
6.6 Safety Precautions for Smithy	6.15

Exercises

1. Round Rod to Square Rod	6.17
2. Hexagonal Headed Rod	6.19
3. Hexagonal Headed Bolt	6.21
4. Square Headed Bolt	6.23
5. Making a Hook	6.25

Chapter-7 : Foundry

7.1 Introduction	7.3
7.2 Moulding Methods	7.3
7.3 Moulding Process	7.4
7.3.1 Steps in Making Green Sand Mould	7.5

7.4 Components Required for Moulding	7.7
7.4.1 Moulding Sand (Green Sand)	7.7
7.4.1 Sands used for Moulding	7.8
7.4.2 Properties of Moulding Sand	7.9
7.5 Patterns	7.10
7.5.1 Types of Pattern	7.10
7.6 Cavity and Gate System	7.13
7.7 Core	7.14
7.7.1 Core Making Process	7.14
7.7.2 Types of Cores	7.15
7.8 Moulding Tools	7.17
7.9 Moulding Box	7.19
7.10 Safety precautions in Foundry	7.20

Exercises

1. Stepped Cone Pulley	7.23
2. General Split Pattern	7.27
3. Groove Pulley	7.31
4. Gear Wheel	7.35

Chapter-8 : Fitting

8.1 Introduction	8.3
8.2 Fitting Tools	8.3
8.2.1 Holding Tools	8.3
8.2.2 Striking Tools or Hammers	8.5
8.2.3 Marking and Measuring Tools	8.6
8.2.4 Cutting Tools	8.10
8.2.5 Finishing Tools	8.13
8.3 Classification of Files	8.14
8.4 Fitting Process	8.18
8.5 Safety Precautions in Using Tools	8.22
8.6 Safety Precautions in Fitting Shop	8.22

Exercises

1. Square Filing	8.25
2. Square Joint	8.27
3. V-Joint	8.29
4. Hexagonal Joint	8.31
5. Half Round Joint	8.33
6. Dovetail Joint	8.35

Chapter-9 : Sheet Metal Work

9.1 Introduction	9.3
9.2 Components Made From Sheet Metal	9.3
9.3 Metals Used For Sheet Metal Works	9.4
9.4 Tools Used in Sheet Metal Works	9.5
9.5 Sheet Metal Joints	9.11
9.5.1 Hem	9.11
9.5.2 Seam	9.11
9.5.3 Riveting	9.12
9.6 Sheet Metal Formating Operations	9.12
9.7 General Property of Metals	9.12

Exercises

1. Development of Cube by Notching Process	9.19
2. Rectangular Tray	9.21
3. Open Scoop	9.23
4. Making a Hook	9.25

Chapter- 10 : Electrical

10.1 Introduction	10.3
10.2 Basic Definitions	10.3

10.3 Basic of Electrical	10.4
10.4 Circuits	10.5
10.5 Accessories Used in Wiring	10.9
10.6 Circuit Symbols for Electrical Items	10.14
10.7 Tools Used in Electrical	10.17
10.8 Types of Circuit	10.23
10.8.1 Open Circuit	10.23
10.8.2 Short Circuit	10.24
10.8.3 Various Other Circuits	10.24
10.9 Wiring Diagram	10.26
10.10 Wiring System for a House	10.27
10.11 Study of Iron Box	10.29
10.11.1 Wiring for an Automatic Iron Box	10.29
10.12 Study Of Ceiling Fan	10.30
10.12.1 Wiring Diagram for a Ceiling Fan	10.31
10.13 Study of Emergency Lamp	10.32
10.14 Preparation of Wiring Diagram	10.33
10.15 Safety Precautions	10.34

Exercises

1. Fluorescent Lamp	10.37
2. House Hold Wiring Using Switches, Socket, Indicator Lamp & Energy Meter	10.41
3. Staircase Wiring by Two Way Switch	10.45
4. Measurement of Electrical Quantity like Voltage, Current , Power, Power Factor	10.49
5. Measurement of Energy Using Single Phase Energy Mete	10.53
6. Measurement of Resistance to Earth by Using Electrical Equipment	10.57

Chapter- II : Electronics

11.1 Study of Electronic Component and Equipments	11.3
11.1.1 Active Components	11.3
11.1.2 Passive Components	11.7
11.2 Colour Coding of Resistor	11.14
11.3 Study of Logical Gates	11.15
11.3.1 Universal Gates	11.18
11.4 Study of Soldering and De-Soldering of Electronic Components	11.20
11.5 Preparing for Soldering	11.22

Exercises

1. Study of Electrical Resistor and its Colour Coding	11.25
2. Measurement of AC Signal Parameter (Peak-Peak, RMS, Time Period and Frequency) using CRO	11.27
3. Soldering and De-Soldering Practice	11.31
4. Measurement of Ripple Factor for Half Wave Rectifier	11.35
5. Measurement of Ripple Factor for Full Wave Rectifier	11.39
6. Study Of Logic Gates	11.43
7. Generation of Clock Signal	11.47

Viva Questions

1. Viva Questions Workshop	V.2
----------------------------------	-----
